

Zen Crossover Valve

Use with a Zen Life to create a 4 in 1 tap

Usage

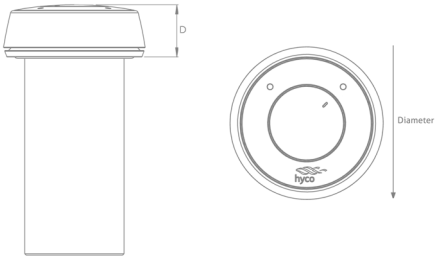

The elegant Zen Crossover Valve can be used to add filtered cold drinking water to the Zen Life or any kitchen mixer tap. Finished in polished chrome, brushed nickel, gold, rose gold or matt black the Crossover Valve will sit discreetly on the worktop near your tap and allow you to choose between mains cold and filtered drinking water.

This multipurpose valve could also be used with any tap to choose between two cold water options.

Features and Benefits

- Elegant counter mounted Crossover Valve
- Use with the Zen Life to create a 4 in 1 tap - hot & cold mixer, boiling and filtered cold
- Smooth, ergonomic operation
- Efficient - only filter the water you are going to drink
- Maintains higher flow rate mains cold for washing up
- Filtered drinking water has a lower flow rate
- Comes with drinking water filter (F1T) (See page 38) which provides 1 micron particle filtration
- Installation kit included
- Simple to use and easy to install
- Not suitable for boiling water
- Sits discreetly on the worktop near your tap or site in your undersink kitchen cupboard if you prefer

Product Code	Finish
ZENCX	Polished chrome
