

PIR Quartz Controller

3.0 kW

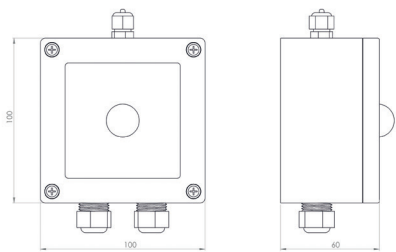

Usage

Designed to work alongside all makes of quartz halogen infrared heater.

Features and Benefits

- Save energy by ensuring that halogen heaters are only on when you need them to be
- Can control up to 3.0 kW of quartz heating load
- Protect switchgear from high inrush currents when the lamps are first switched on from cold
- Weatherproof for outdoor use
- Run time adjustment from 1 – 99 minutes
- Temperature adjustment – the unit will not operate if ambient temperature above threshold
- Easy to install
- Automatically activated by motion from up to 5m and will remain on for the pre-set time, continuous movement will reset the timer

Product Code	Power (kW)	Operating Temp (°C)	Current (amps)
QZC-PIR3	Up to 3.0 kW	2 to 60	6

Outer Casing
ABS

Switching Capacity
3.0 kW maximum
13 amps

Current Consumption
(control circuit)
2.0 W (10mA max)

Lamp On-Time
1 – 99 minutes

Gland Diameter
20mm

IP Rating
IP65

Installation
Wall mounting kit included and must be used.

Electrical Connection
Installation must comply with current IEE regulations.

The product should be connected to the fixed wiring of the property via a suitably rated isolating switch with a contact separation of at least 3mm in all poles.

Class I

Approvals
CE

Standard Warranty
1 year parts or replacement warranty.
