

Vega Automatic Infrared Taps

Mixer Lever, Square and Curve
Hygienic No Touch Operation

Usage

Automatic no touch range of taps to meet strict hygiene requirements, suitable for hand wash basins and supplied with a 3 l/min flow restrictor. Help to reduce water consumption and save energy. Compatible instantaneous and storage water heaters available.

Features and Benefits

- Hygienic no touch operation
- Includes 3 l/min flow restrictor
- Reduce water consumption by up to 50% compared to traditional taps by controlling the flow rate
- Save energy by up to 50% compared to traditional taps by reducing the amount of hot water required per hand wash
- Usage timer prevents vandalism, continuous running and saves water.
- Ara, Rho and Aquila instantaneous water heaters are only intended for use with spray head taps of this type. If traditional taps which do not control the water flow rate are used then optimum performance will not be achieved.
- When used with a storage water heater a thermostatic mixing valve is required (see page 52).
