Zen Revolution

At Hyco we are dedicated to providing quality products, excellent customer service and comprehensive technical support. The recently extended Zen 100°C Boiling and Chilled Tap range represents our commitment to continuous innovation and UK based design and assembly. It offers a practical yet stylish solution whatever your water needs.

True Boiling 100°C

We believe elegant water solutions should be an **energy efficient**, reliable, **safe** option and something you can enjoy as an **affordable luxury**. The boiling and chilled tap revolution reflects a fast paced, modern way of office life and allows staff to enjoy the **convenience** of instant water in a dynamic, productive working environment.

Energy Efficient

Time Saving

The Zen 100°C Boiling and Chilled Tap range is one of only a few **true boiling 100°C** taps on the market. Advanced technology ensures water can be enjoyed at an optimum temperature whilst increasing energy efficiency and **saving you money**.

Space Saving

3 or 6L Capacity

The **modular approach** of the Zen range allows individual requirements to be met with tailor made water configurations. This concept makes a Zen the ideal solution for **commercial specification projects**. With 3 and 6L boiling tank capacities available and the option to reduce boiling temperature down to 98°C the perfect solution for your office can be found, whatever the size.

Designed and Assembled in UK

A modular approach means your employees can enjoy combinations of 100°C boiling water for tea and coffee making, high quality filtered cold drinking water and kitchen hot and cold mixer capabilities. Everything required for a Zen tap installation has been designed to fit efficiently within a standard size kitchen undersink cupboard.

The smart option... with smart technology

One of the most energy efficient taps available

- Innovative aerogel insulation around the boiling water tank keeps energy losses to a minimum
- The Zen 100°C tap range with 3 litre boiling water tank has energy losses of just 17 W (0.41 kWh/ day)
- Stainless steel boiling water tank
- No need for a programmable timer as smart algorithms learn and predict boiling water usage
- The unit will be on when you need it, off when you don't
- No time is wasted reprogramming a timer as algorithms are constantly updating if usage patterns change
- Save time and resources whilst enjoying reduced costs for your office environment

£ Join the revolution...
It will cost just 4p a day, 28p a week to provide the benefits of a Zen Solo in your office

Based on stand-by power consumption of 17W for 3L boiling tank. Electricity cost 10p/ kWh.

Standing loss figure and running costs for 6L boiling tank which comprises 2 x 3L tanks will be double the values above.

Zen Solo 100°C

Boiling Water Tap

Dedicated 100°C instant boiling water tap saves time, space and energy in any office environment. The ideal solution for tea and coffee making and preparing instant meals. This practical solution will revolutionise the hub of your work space. It will create an elegant and modern kitchen whilst providing speed and efficiency for your staff.

Available in 3 or 6L boiling tank capacity

Replaces the need for a traditional kettle

The Zen Solo can be installed over a sink or with the stylish, tempered glass design Zen Font

WRAS approved at 98°C

100°C

Zen Spa 100°C

2 in 1 Boiling and Chilled Tap

The Zen Spa is a 2 in 1 hot and cold drinks station. A practical addition to any office, replacing the traditional need for a wall mounted boiling water heater and a separate floor standing chiller. This modular solution allows you to tailor the tap to your individual requirements.

Available in 3 or 6L boiling tank capacity

Cold (ambient) drinking water models connect directly to the incoming water supply

Chilled drinking water models include a Sapphire undersink chiller

Supplied with high quality cold drinking water filter

100°C

Filtered Cold

Filtered Chilled

Zen Life 100°C

Boiling Water Tap with Hot and Cold Mixer

A practical and space saving solution for any office kitchen. The stylish 3 in 1 tap provides instant 100°C boiling water alongside standard hot and cold kitchen mixer tap capabilities.

Creates a clutter free and simplified design to optimise your environment

Available in 3 or 6L boiling tank capacity

Ideal for retro-fit applications as well as new specification projects. All of our Zen taps fit in a standard 32 mm tap hole.

Throw away your existing mixer tap and simply replace with a Zen Life

100°C

Hot & Cold Mixer

Perfect with...

Zen Solo - for dedicated boiling water

Zen Spa - for 2 in 1 boiling and chilled solutions

Zen Ice Tap Range or Crystal Pure - for filtered, chilled and/ or sparkling water options

Aria

Kitchen Mixer Tap

A tall, elegant hot and cold kitchen mixer tap with a sleek, curved design.

The Aria has been designed to compliment your chosen tap, either the Zen Solo or Zen Spa. This provides a stylish and co-ordinated solution for your office kitchen, where separate taps for boiling/ chilled water and general kitchen use are desired.

Polished chrome finish

360° swivel tap

Single lever operation

Integrated aerator helps manage and reduce water usage

Perfect to accompany the Zen Solo or Zen Spa

Drinking Water Filters

Taste and Odour, Scale

Pure filtered water forms the perfect foundation of a healthy lifestyle. Give your mind and body the kick start it needs by indulging in the benefits pure water has to offer.

By ensuring you hit the recommended daily consumption of water you can feel healthier, perform better and help protect your immune system, all whilst enjoying water that tastes and smells great!

Quick and easy to change

Improve the taste and odour of water

Retains important minerals in water

High capacity filters available for heavy commercial use

Automatic water shut off head and integral mounting bracket

The 2 main types of filter are;

Taste and Odour Carbon Block

Improves the taste and smell of drinking water

Supplied with all cold drinking water taps and floor standing chillers

Scale Inhibiting

Strongly recommended for use with boiling water products

Required when installed in areas where scales is a known issue

Ask our specification or sales team for advice on your individual requirements

Support the health and wellbeing of your work force by giving them easily accessible, pure filtered and healthy water. Not only can this help boost the immune systems of your staff, reducing sickness but can help enhance productivity and alertness.

Your office can become a hive of productivity, with alert and stimulated staff; all being fuelled by great tasting, fresh filtered water.

Create your perfect filtered drinking water solution with ease and style.

Enjoy the refreshing convenience of pure filtered drinking water...instantly.

Crystal Pure

Cold Drinking Water Tap Single Outlet

An ideal solution for cold drinking water provision. The Crystal Pure can supply filtered cold (ambient), chilled or sparkling water from a single outlet tap dependent on individual preference.

The Crystal Pure can be installed with the stylish Zen Font to create a separate, convenient drinks station where access to a sink is unavailable or not desired.

Pictured with the stylish Zen Font

360° swivel tap

Stylish brushed stainless steel finish

Team with one of our Sapphire undersink chillers for chilled or sparkling water

Instant high quality filtered drinking water

Drinking water filter and installation kit supplied

Suitable for filling sports bottles and carafes

Sapphire

Undersink Water Chiller Aluminium Heat Exchange

Discrete undersink water chiller to be used with a counter mounted tap and filter to provide instant, high quality chilled drinking water. The perfect low cost, low maintenance solution for your office, where demand is for small frequent draw-offs.

Most suitable for smaller frequent draw-offs

Aluminium heat exchange technology chills water as it passes through

Chill capacity 25 litres or 150 glasses per hour
(based on 167ml glass)

Saves space in your office as you no longer need a floor standing chiller

Chilled water temperature adjustable from 6°C to 14°C

Sapphire

Undersink Water Chiller Ice Bank

An ideal solution for instant, high quality chilled drinking water in your office, where demand is for high usage.

Most suitable for larger infrequent draw-offs

Ice bank technology chills water as it flows through a stainless steel coil in a reservoir of ice

Chill capacity 30 litres or 180 glasses per hour
(based on 167ml glass)

Ice bank technology requires regular maintenance

Saves space in your office as you no longer need a floor standing chiller

Chilled water temperature adjustable from 5°C to 12°C

Sapphire Undersink Chillers are perfect with...

Zen Spa - for 2 in 1 boiling and chilled solutions

Zen Ice Tap Range or **Crystal Pure** - for chilled and or sparkling drinking water options

Sapphire

Stainless Steel Water Chiller Floor Standing

A traditional and practical solution for providing instant high quality chilled drinking water in high usage public areas.

Plumbed in system gives reduced costs over bottle fed water coolers

Stainless steel sink top and cabinet

Direct chill technology

Drinking water filter and installation kit supplied

Adjustable chilled water temperature

BREEAM compliance kit available

Sapphire

Water Dispenser, Hot and Cold Floor Standing

An ideal solution where hot and cold water is required in an area of low usage. A stylish floor standing unit that is suitable for offices and waiting areas.

Plumbed in system gives reduced costs over bottle fed water coolers

Low noise design

Compressor cooling

Drinking water filter and installation kit supplied

Unique child-lock feature for hot water

Separate on/ off switch for heating and cooling functions

Power on indicator light

Removable drip tray

Omega

Wall Mounted Boiling Water Heater

A practical, stylish wall mounted boiling water heater that provides instant boiling water for preparing hot drinks in the workplace. The Omega is the perfect contemporary solution for tea and coffee making in your office and will save time, space and energy.

Available in 3 or 5L capacity

Robust and durable design specification

Cool touch control valve and water outlet reduce heat losses

LED status ring on the base of the control valve to indicate ready/ heating

Autocalibration for optimal temperature

Energy losses of just 23 W (0.55 kWh/ day)

Time Saving

Space Saving

Energy Saving

Designed and Assembled in UK

£ It will cost just 5p a day, 35p a week to provide the benefits of an Omega in your office
Based on stand-by power consumption of 23W. Electricity cost 10p/ kWh.

Microboil

Wall Mounted Boiling Water Heater

A traditional wall mounted boiling water heater that provides instant boiling water, ideal for making tea and coffee in the workplace. With a traditional robust design the Microboil offers a convenient and practical solution for many office applications.

Available in 3, 6, 8, 16 and 25L capacity

An ideal solution when a larger capacity wall mounted boiling water solution is required

Available in white or stainless steel finish

Heavy duty catering style chrome tap with lock-on option

Stylish and compact design

Sophisticated electronics maintain a constant supply of hot water - even when the unit is automatically re-filling after heavy usage

Simple to use and easy to install

Initial draw-off capability of up to 156 cups/ 103 mugs
(based on 167ml cup/ 250ml mug)

Time Saving

Space Saving

Specification

We have a specification team working nationally with architects, mechanical and electrical consulting engineers and contractors to ensure the correct product is selected right from the project design stage.

Technical Support

We provide comprehensive pre and post sales technical support to distributors, architects, consultants, installers and end users. Our technical sales team will help ensure that customers get the right product every time.

Stockists

Hyco products are available nationally through most electrical wholesalers and plumbers merchants.

Warranty

The Zen boiling and chilled tap range benefits from a 2 year parts or replacement warranty.

If there is a manufacturing defect we will send spare parts or collect, repair and return the unit or, at our discretion, we may supply a replacement product.

The Omega and Microboil wall mounted boiling water heaters come with a 1 year on-site warranty as standard.

A 3 year on-site warranty is available upon request at an additional cost.

We will arrange for a service engineer to rectify any manufacturing defect.

Most Hyco products are covered by a standard 1 year parts or replacement warranty.

For all water heating products scale and frost damage are not covered by warranty.

Product Specification

We aim to ensure that all the information in this brochure is accurate at the date of publication. However, we reserve the right to change specifications at any time without notice.
