#### Zen Font with Drain

Use your Zen tap at a standard sink or with a Zen Font. With its stunning tempered glass design the Zen Font provides a stylish, sleek solution for installing a Zen tap on your worktop to create a kitchen design feature.

## Zen 100°C Boiling Range

### Features and Benefits

#### True Boiling 100°C Boiling Water

The Zen tap range is one of only a few boiling water taps on the market which delivers instant 100°C true boiling water. Boiling water taps are causing a revolution in the kitchen. No more waiting for the kettle to boil, instant 100°C water for a wide range of kitchen uses.

Pressurised system allows water in the undersink tank to be stored at 108°C so water can be dispensed at 100°C.

The dispensed water temperature can be adjusted down to 98°C on installation if required.

#### Standing Losses 17 W - costs just 4p a day

One of the most energy efficient boiling water taps available. Innovative aerogel insulation around the boiling water tank keeps energy losses to a minimum. The Zen 100°C Tap Range with 3 litre boiling water tank has standing losses of 17 W (0.41 kWh/day). Cost per day based on electricity cost 10p/ kWh.

#### Smart, Energy Saving Technology

No need for a programmable timer as smart technology optimises power usage. Sophisticated electronic algorithms learn and predict boiling water usage so the unit is on when you need it and off when you don't.

This provides great energy efficiency. No time is wasted programming or reprogramming a timer as algorithms are constantly updating if your usage pattern changes.

#### Status Ring

A status ring on the base of the tap indicates ready or heating (green/ red LED). It also indicates when the unit is in sleep mode.

#### Tap Finishes

All of the Zen range taps come in polished chrome as standard. Other finishes available as special order at additional cost.

#### Stainless Steel Boiling Water Tank

The boiling water tank is available in 3 or 6 litre capacity. 6 litre model comprises 2 x 3 litre tanks with linking kit.

#### Safety Features

Safety lock mechanism on the boiling side and cool touch insulated tap.

#### Designed and Assembled in the UK

At our manufacturing facility in West Yorkshire.

#### Warranty

At Hyco we take pride in the design, quality and innovation of our products. The full Zen range is covered by a 2 year parts or replacement warranty.
